CivitBUILD
by SoftTech

Embrace the next-generation Construction Enterprise Solution

Industry-focussed enterprise solution that manages entire construction processes

CivitBUILD is an end-to-end enterprise solution exclusively created for the construction industry. The solution can seamlessly digitalize your organization's functions and optimize all the workflows, giving you complete control & visibility over your business.

Our cloud-based solution works anywhere anytime, connects your multiple project locations and provides dynamic reports & dashboards on a real-time basis. This helps enterprises avoid cost and time overruns by taking well-informed & timely strategic decisions during various stages of the project.

Flexible & Scalable

An integrated solution for your every business need

CivitBUILD offers you the choice, flexibility and agility to unlock growth and opportunities. The solution helps organizations streamline their projects, resources & financials on a single integrated platform.

The solution is scalable to handle all requirements right from a single project or single user to unlimited projects or unlimited users.
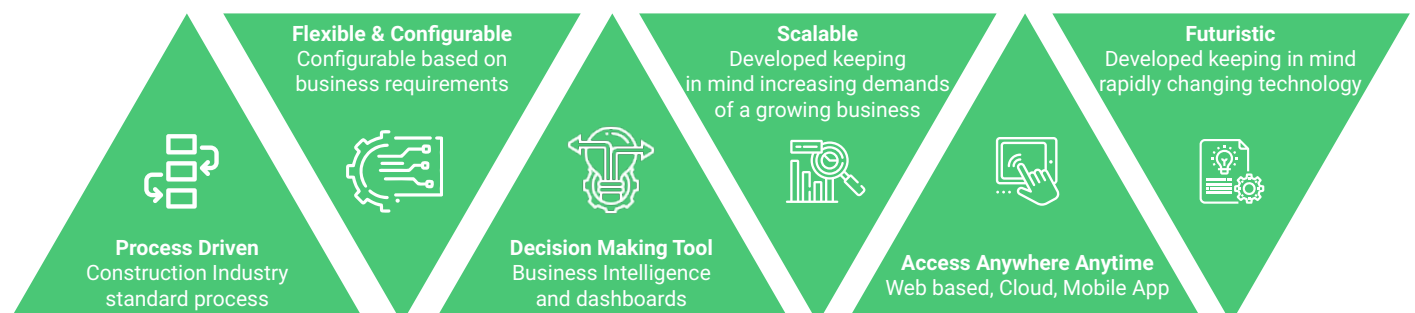

Ready-to-use for construction companies, real-estate developers & consultants

- Start immediately with a ready-to-use ERP on the cloud
- Automatic upgrades with technology advancements
- Instant approvals for purchases and sanction activities
